

Report on the implementation of AEWA for the period 2009-2011

The format for reports on the implementation of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) for the period 2009-2011 was approved at the 4th session of the Meeting of the Parties (15-19 September 2008, Antananarivo, Madagascar) by Resolution 4.7. Further amendments were endorsed by the Standing Committee in August 2011 in accordance with operative paragraph 11 of Resolution 4.7. This format has been constructed following the AEWA Action Plan, the AEWA Strategic Plan 2009-2017 and resolutions of the Meeting of the Parties (MOP).

In accordance with Article V.1(c) of the Agreement on the Conservation of African-Eurasian Migratory Waterbirds, each Party shall prepare to each ordinary session of the MOP a National Report on its implementation of the Agreement and submit that report to the Agreement Secretariat not later than 120 days before the session of the MOP. The 5th Session of the Meeting of the Parties (MOP5) is taking place on 14-18 May 2012 in La Rochelle, France; therefore **the deadline for submission of National Reports is 14 January 2012.**

The AEWA National Reports 2009-2011 will be compiled and submitted through the CMS Family Online Reporting Facility, which is an online reporting tool for the whole CMS Family. However, AEWA will be the first of the CMS-related treaties to use the CMS Family Online Reporting System for its reporting to MOP5. The CMS Family Online Reporting System was developed in 2010-2011 by the UNEP-World Conservation Monitoring Centre (UNEP-WCMC) in close collaboration with and under the guidance of the UNEP/AEWA Secretariat.

As a new product, the system may still need some refining and improving, we therefore request your understanding: any feedback or suggestions on your side would be greatly appreciated.

The online reporting system offers flexibility and versatility superior to the previously used paper-based reporting and the UNEP/AEWA Secretariat hopes that the Parties will find it to be more convenient and efficient. In particular, it will make information more easily accessible and also enhance ways of using it. In this context, Resolution 4.7 also requests UNEP to assist in the development of an analytical tool and calls upon Parties to support this initiative and provide financial resources and thus strengthen the online format for national reporting in collaboration with UNEP-WCMC. The online reporting system brings national reporting to a different level, enabling the information provided to be used much more effectively; it also serves as a tool for self-assessment by Parties. In addition, it can help to enhance cooperation and coordination between various stakeholders in your country by making the national reporting more of a collective, collaborative and continuous process.

To contact the UNEP/AEWA Secretariat please send your inquiries to aewa_national_reporting@unep.de.

1. General Information

Name of reporting Contracting Party

> Slovak Republic

Date of entry into force of AEWA in the Contracting Party

> 01.07.2001

List any reservations that the Contracting Party has made (if any) upon deposition of its instruments of accession on provisions of the Agreement or its Action Plan in accordance with Article XV of AEWA

> None

2. Institutional Information

Please update information on the National AEWA Administrative Authority, the National Focal Points, the Designated National Respondent and the other contributors to this report.

Designated National AEWA Administrative Authority

Full name of the institution

› Ministry of Environment of the Slovak Republic, Division for Nature Protection and Landscape Management

Name and title of the head of institution

› Mr. Mgr. Rastislav Rybanič, Director General of the Division

Mailing address - Street and number

› Námestie L. Štúra 1

Postal code

› 812 35

City

› Bratislava

Country

› Slovakia

Telephone

› +421 2 5956 2160

Fax

› +421 2 5956 2533

E-mail

› rastislav.rybanic@enviro.gov.sk

Website

› www.minzp.sk

Designated National Focal Point (NFP) for AEWA matters

Name and title of the NFP

› Ms. Jana Janecová

Affiliation (institution, department)

› Ministry of Environment, Department of International Conventions

Mailing address - Street and number

› Námestie L. Štúra 1

Postal code

› 812 35

City

Designated National Respondent (DNR) in charge of the compilation and submission of the AEWA National Report 2009-2011

Please select from the list below as appropriate.
☒ Another person has been designated as the National Respondent

Name and title of the DNR
> Mr. Jan Kadlečík, Head of Department of International Treaties

Affiliation (institution, department)
> State Nature Conservancy of the Slovak Republic

E-mail
> jan.kadlecik@sopsr.sk

Other contributors to the AEWA National Report 2009-2011

Please list the names and affiliations (institution, organisation) of the other contributors to this reports
> Mrs. Ing. Andrea Lesova, PhD., Mgr. Peter Puchala, PhD., Mgr. Jan Cernecky - State Nature Conservancy of the Slovak Republic, Banska Bystrica;
Jozef Ridzon, Slovak Ornithological Society/BirdLife Slovakia, Bratislava;

Status

3. Species Status

Please select from the drop-down list below only the species that occur in your country

AEWA Species - *Gavia stellata* / Red-throated Diver

English Common name(s):

Red-throated Diver, Red-throated Loon

French Common name(s):

Plongeon catmarin

Confirmation of species occurrence

Optionally you can provide additional information on the legal status of the species in the country

> The species is protected according to § 35 (3) of the Act on Nature and Landscape Protection No. 543/2002:

(1) It is prohibited to

- a) capture, wound or kill protected animals in their natural environment,
- b) disturb protected animals in their natural development, especially to disturb them in a period of their breeding, rearing, hibernation, migration,
- c) disturb and damage habitats of protected animals, especially their dwellings, nests or sites for breeding, acquiring food, resting, moulting or wintering,
- d) destroy development phases of protected animals in wild including empty eggs,
- e) collect development phases of protected animals in wild including empty eggs,
- f) possess protected animals including possession of empty eggs from wild,
- g) breed protected animals in captivity,
- h) sell, buy or exchange and offer protected animals for sale or exchange,
- i) move or transport protected animals,
- j) carry out interspecies hybridisation of protected animals,
- k) export protected animals.

(3) Prohibition according to Section (1) a), f), g) and i) does not apply to bird species the list of which is issued by the Ministry under a generally binding regulation if they have been obtained in compliance with special regulations. In case of game the Ministry issues a generally binding regulation upon agreement with the Ministry of Agriculture (Reg. No. 24/2003).

Legal Status

(measures as per paragraph 2.1.2 of the AEWA Action Plan - applicable to species with populations listed on Column B of the AEWA Table 1)

Taking of birds and eggs during reproductive or rearing period and pre-nuptial migration prohibited

☒ Yes

Regulated modes of taking in place

☒ Yes

Established limits of taking (birds or eggs per hunter per day or season)

☒ No

Prohibited possession or utilization of, and trade in, birds and eggs of the populations which have been taken in contravention of any prohibition laid down pursuant to the provisions of paragraph 2.1.2 of the AEWA Action Plan (i.e. in the reproductive or rearing period, pre-nuptial migration, using modes of taking that are under regulation, and excess over the limits) as well as the possession or utilization of, and trade in, any parts of such birds and their eggs

☒ Yes

National Red List Status

Is a National Red List of threatened species maintained in your country?

☒ Yes

Do National Red Lists have a legal status in your country?

☒ Yes

Latest assessment

Indicate the category of the species on the National Red List. If your national categories differ from these ones, indicate those which most closely correspond to them.

☒ Yes

Legal Status - Field for additional information (optional)

Optionally you can provide additional information on the legal status of the species in the country

> The species is protected according to § 35 (3), (4) of the Act on Nature and Landscape Protection No. 543/2002:

(1) It is prohibited to

- a) capture, wound or kill protected animals in their natural environment,
- b) disturb protected animals in their natural development, especially to disturb them in a period of their breeding, rearing, hibernation, migration,
- c) disturb and damage habitats of protected animals, especially their dwellings, nests or sites for breeding, acquiring food, resting, moulting or wintering,
- d) destroy development phases of protected animals in wild including empty eggs,
- e) collect development phases of protected animals in wild including empty eggs,
- f) possess protected animals including possession of empty eggs from wild,
- g) breed protected animals in captivity,

- h) sell, buy or exchange and offer protected animals for sale or exchange,
- i) move or transport protected animals,
- j) carry out interspecies hybridisation of protected animals,
- k) export protected animals.

(3) Prohibition according to Section (1) a), f), g) and i) does not apply to bird species the list of which is issued by the Ministry under a generally binding regulation if they have been obtained in compliance with special regulations. In case of game the Ministry issues a generally binding regulation upon agreement with the Ministry of Agriculture (Reg. No. 24/2003).

(4) Prohibition according to Section (1) a) and f) to i) does not apply to specimens of those bird species the list of which is issued by the Ministry under a generally binding regulation if they have been obtained in compliance with special regulations (Reg. No. 24/2003)

Optionally you can provide additional information on the legal status of the species in the country

> The species is protected according to § 35 (3) of the Act on Nature and Landscape Protection No. 543/2002:

(1) It is prohibited to

- a) capture, wound or kill protected animals in their natural environment,
- b) disturb protected animals in their natural development, especially to disturb them in a period of their breeding, rearing, hibernation, migration,
- c) disturb and damage habitats of protected animals, especially their dwellings, nests or sites for breeding, acquiring food, resting, moulting or wintering,
- d) destroy development phases of protected animals in wild including empty eggs,
- e) collect development phases of protected animals in wild including empty eggs,
- f) possess protected animals including possession of empty eggs from wild,
- g) breed protected animals in captivity,
- h) sell, buy or exchange and offer protected animals for sale or exchange,
- i) move or transport protected animals,
- j) carry out interspecies hybridisation of protected animals,
- k) export protected animals.

(3) Prohibition according to Section (1) a), f), g) and i) does not apply to bird species the list of which is issued by the Ministry under a generally binding regulation if they have been obtained in compliance with special regulations. In case of game the Ministry issues a generally binding regulation upon agreement with the Ministry of Agriculture (Reg. No. 24/2003).

Legal Status - Field for additional information (optional)

Optionally you can provide additional information on the legal status of the species in the country

> The species is protected according to § 35 (3) of the Act on Nature and Landscape Protection No. 543/2002:

(1) It is prohibited to

- a) capture, wound or kill protected animals in their natural environment,
- b) disturb protected animals in their natural development, especially to disturb them in a period of their breeding, rearing, hibernation, migration,
- c) disturb and damage habitats of protected animals, especially their dwellings, nests or sites for breeding, acquiring food, resting, moulting or wintering,
- d) destroy development phases of protected animals in wild including empty eggs,
- e) collect development phases of protected animals in wild including empty eggs,
- f) possess protected animals including possession of empty eggs from wild,
- g) breed protected animals in captivity,
- h) sell, buy or exchange and offer protected animals for sale or exchange,
- i) move or transport protected animals,
- j) carry out interspecies hybridisation of protected animals,
- k) export protected animals.

(3) Prohibition according to Section (1) a), f), g) and i) does not apply to bird species the list of which is issued by the Ministry under a generally binding regulation if they have been obtained in compliance with special regulations. In case of game the Ministry issues a generally binding regulation upon agreement with the Ministry of Agriculture (Reg. No. 24/2003).

Pressures and Responses

4. Species Conservation

4.1 Legal Measures

1. Were any exemptions granted to the prohibitions laid down in paragraphs 2.1.1 and 2.1.2 of the AEWA Action Plan? (AEWA Action Plan, paragraph 2.1.3)

☒ Yes

Please provide information on each species for which exemption was granted

Exemption for *Phalacrocorax carbo* / Great Cormorant

Purpose of exemption (from the AEWA Action Plan)

- ☒ (a) To prevent serious damage to crops, water and fisheries
- ☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

> 400

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> all regions

Time span of the exemption

> 2009-2015

Year when the exemption was granted

> 2009, 2010, 2011

Additional information on this exemption (alternatively provide a web link or attach a file)

> Ministry of Environment granted during the reporting period several exemptions to prevent serious damage to fisheries (killing, deliberate disturbance, scare away) in fish production areas, fisponds, reservoirs, rivers and for air safety in the airport.

Exemption for *Ardea cinerea* / Grey Heron

Purpose of exemption (from the AEWA Action Plan)

- ☒ (a) To prevent serious damage to crops, water and fisheries
- ☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

> 50

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Kuchyna Airport (military), Bohelov fishponds (Western Slovakia); Zilina Airport; Dubove, Turciansky Michal fishponds (Central Slovakia)

Time span of the exemption

> 2009 - 2015

Year when the exemption was granted

> 2009, 2010, 2011

Additional information on this exemption (alternatively provide a web link or attach a file)

> Destruction, damage to and removal of nests; Killing; Deliberate disturbance, scare away

Exemption for *Casmerodius albus* / Great Egret

Purpose of exemption (from the AEWA Action Plan)

- ☒ (a) To prevent serious damage to crops, water and fisheries
- ☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› not specified - mostly scare away

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Kuchyna Airport (military), Bohelov fishponds (Western Slovakia)

Time span of the exemption

› 2010 - 2014

Year when the exemption was granted

› 2010, 2011

Additional information on this exemption (alternatively provide a web link or attach a file)

› Deliberate disturbance, scare away

Exemption for *Ciconia ciconia* / White Stork

Purpose of exemption (from the AEWA Action Plan)

- ☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› 1 nest; not specified numbers for scare away

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Zilina Airport (Central Slovakia); Poprad (Eastern Slovakia)

Time span of the exemption

› 2009 - 2015

Year when the exemption was granted

› 2009; 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

› Several exemptions were granted during the reporting period by the Ministry of Environment for destruction, damage to or removal of nests (1); deliberate disturbance, scare away from the airport (artificial light sources, acoustic alarm)

Exemption for *Cygnus olor* / Mute Swan

Purpose of exemption (from the AEWA Action Plan)

- ☒ (b) In the interests of air safety or other overriding public interests
- ☒ (c) For the purpose of research and education, of re-establishment and for the breeding necessary for these purposes
- ☒ (d) To permit under strictly supervised conditions, on a selective basis and to a limited extent, the taking and keeping or other judicious use of certain birds in small numbers

Number of individuals for which exemption was granted

› 1 - keeping and care; not specified numbers for scare away

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Zilina Airport (Central Slovakia), Kosice (Eastern Slovakia)

Time span of the exemption

› 2009 - 2015

Year when the exemption was granted

> 2009

Additional information on this exemption (alternatively provide a web link or attach a file)

> Ministry of Environment granted exemptions for deliberate disturbance, scare away; and for keeping and care for wounded birds, breeding

Exemption for *Anser albifrons* / Greater White-fronted Goose

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

> not specified - mostly scare away

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Kuchyna Airport (military) (Western Slovakia);

Time span of the exemption

> 09.10.2010 - 30.06.2014

Year when the exemption was granted

> 2010, 2011

Additional information on this exemption (alternatively provide a web link or attach a file)

> Killing; Deliberate disturbance, scare away

Exemption for *Anser anser* / Greylag Goose

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

> not specified - mostly scare away

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Kuchyna Airport (military) (Western Slovakia); Zilina Airport (Central Slovakia)

Time span of the exemption

> 2009 - 2015

Year when the exemption was granted

> 2009, 2011

Additional information on this exemption (alternatively provide a web link or attach a file)

> Killing; Deliberate disturbance, scare away

Exemption for *Anas platyrhynchos* / Mallard

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

> not specified

Number of eggs for which exemption was granted

> 0

Territorial coverage of the exemption

> Kuchyna Airport (Western Slovakia); Zilina Airport (Central Slovakia)

Time span of the exemption

› 2009, 2011

Additional information on this exemption (alternatively provide a web link or attach a file)

› Destruction, damage to and removal of nests; Killing; Deliberate disturbance, scare away

Exemption for *Vanellus vanellus* / Northern Lapwing

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› not specified - mostly scare away

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Bratislava Airport (Western Slovakia); Sliac Airport, Zilina Airport (Central Slovakia)

Time span of the exemption

› 2009 - 2015

Year when the exemption was granted

› 2009, 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

› Destruction, damage to and removal of nests; Killing; Deliberate disturbance, scare away

Exemption for *Numenius arquata* / Eurasian Curlew

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› not specified - mostly scare away

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Bratislava Airport (Western Slovakia)

Time span of the exemption

› 20.01.2010 - 31.12.2012

Year when the exemption was granted

› 2009

Additional information on this exemption (alternatively provide a web link or attach a file)

› Deliberate disturbance, scare away

Exemption for *Larus argentatus* / Herring Gull

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› not specified

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Bratislava Airport (Western Slovakia)

Time span of the exemption

› 20.01.2010 - 31.12.2012

Year when the exemption was granted

› 2009

Additional information on this exemption (alternatively provide a web link or attach a file)

› Destruction, damage to and removal of nests; Killing; Deliberate disturbance, scare away

Exemption for *Larus cachinnans* / Yellow-legged Gull

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› not specified

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Airport Zilina (Central Slovakia)

Time span of the exemption

› 09.09.2009 - 31.12.2015

Year when the exemption was granted

› 2009

Additional information on this exemption (alternatively provide a web link or attach a file)

› Deliberate disturbance, scare away

Exemption for *Larus ridibundus* / Common Black-headed Gull

Purpose of exemption (from the AEWA Action Plan)

☒ (b) In the interests of air safety or other overriding public interests

Number of individuals for which exemption was granted

› not specified - mostly scare away

Number of eggs for which exemption was granted

› 0

Territorial coverage of the exemption

› Bratislava Airport (Western Slovakia); Sliac Airport, Zilina Airport (Central Slovakia)

Time span of the exemption

› 2009 - 2015

Year when the exemption was granted

› 2009, 2010

Additional information on this exemption (alternatively provide a web link or attach a file)

› Destruction, damage to and removal of nests; Killing; Deliberate disturbance, scare away

Optionally you can provide additional information on section 4.1. Legal Measures

› The Ministry of Environment of the Slovak Republic can allow the exemption from the Act of the National Council of the Slovak Republic No. 543/2002 on Nature and Landscape Protection.

4.2 Single Species Action Plans

2. Please report on the progress of turning the International Single Species Action Plans (ISSAP), for species whose populations are listed on Column A of Table 1, developed under or

recognised by AEWA, into National Single Species Action Plans (NSSAP). (AEWA Action Plan, paragraph 2.2)

Please clarify the relevance of the AEWA International Single Species Action Plans or the other recognised plans (Dalmatian Pelican, Pygmy Cormorant, Red-breasted Goose, Marbled Teal, Slender-billed Curlew and Audouin's Gull) to your country

☒ None of the International Single Species Action Plans is relevant

3. Do you have in place or are you developing a National Single Species Action Plan for any species/population for which an AEWA ISSAP has not been developed? (AEWA Action Plan, paragraph 2.2.2)

☒ Yes

Please provide information on each species for which relevant action has been undertaken

National Single Species Action Plan for *Botaurus stellaris* / Great Bittern

For *Botaurus stellaris* / Great Bittern

☒ NSSAP in development

Please provide details

> LIFE+ project on protection of Great Bittern (and Ferruginous Duck) was approved in 2011 (implemented by the SOS/BirdLife Slovakia), which includes development of the national Action Plan. The planned duration of the project is by the end of 2015.

You have attached the following Web links/URLs to this answer.

[LIFE Project Medzibodrozie](#)

National Single Species Action Plan for *Aythya nyroca* / Ferruginous Duck

For *Aythya nyroca* / Ferruginous Duck

For *Crex crex* / Corncrake

☒ NSSAP in place and being implemented

Please provide details

> Adopted in 2002 by the Ministry of Environment of the Slovak Republic, but has not been updated.

You have attached the following Web links/URLs to this answer.

[Management plan for the Corncrake \(*Crex crex*\) in Slovakia](#) - in Slovak only

4. Did you use the AEWA Guidelines for the preparation of National Single Species Action Plans for migratory waterbirds?

☒ No

Please explain the reasons. What has been used instead as a basis for the preparation of NSSAPs?

> Priority species for development of Action Plans have been other than water bird species during last triennium. But the Guidelines will be used for new Action Plans.

4.3 Emergency Measures

5. Please report on any emergency situation that has occurred in your country over the past triennium and has threatened waterbirds. (AEWA Action Plan, paragraph 2.3)

Please indicate whether an emergency situation threatening waterbirds, such as botulism, chemical pollution,

earthquake, extreme weather, fire, harmful algal bloom, infectious disease, introduction of alien species, lead poisoning, nuclear accident, oil spill, predation, volcanic activity, war or other emergency (please specify), has occurred in the country over the past triennium

☒ No emergency situation has occurred

6. Are there any other emergency measures, which were not mentioned above, but were developed and are in place in your country?

☒ No

7. Did you use the AEWA Guidelines on identifying and tackling emergency situations for migratory waterbirds?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with emergency situations?

> not relevant

4.4 Re-establishments

8. Is there a regulatory framework for re-establishments of species, including waterbirds, in your country (AEWA Action Plan, paragraph 2.4)?

☒ Yes

Please provide details

> According to the law (Act No. 543/2002 on nature and landscape protection) all species re-establishment, restitution and reintroduction must be realized with awareness of the Ministry of Environment of the Slovak Republic and its expert organization.

9. Are you maintaining a national register of re-establishment projects occurring or planned to occur wholly or partly within your country? (Resolution 4.4)

☒ No

Please explain the reasons

> No such projects have been planned / implemented.

10. Has your country considered, developed or implemented re-establishment projects for any species listed on AEWA Table 1? (AEWA Action Plan, paragraph 2.4)

☒ No

4.5 Introductions

11. Does your country have legislation in place, which prohibits the introduction of non-native species of animals and plants, which may have a detrimental effect? (AEWA Action Plan, paragraph 2.5.1)

☒ Yes, and being enforced

Please provide the following details: title of legislation, year of adoption, institution that adopted it, institution that enforces it

> Act No. 543/2002 Coll. on Nature and Landscape Protection, adopted in 2002 by the Government of the Slovak Republic, enforced by the Ministry of Environment; According to this Act it is allowed to spread invasive species behind the border of urban areas only with the approval of the Ministry of Environment of the Slovak Republic.

12. Has your country introduced requirements to zoos, private collections, etc. in order to avoid the accidental escape of captive birds belonging to non-native species? (AEWA Action Plan, paragraph 2.5.2)

☒ Yes, and being enforced

Please provide the following details: title of the document, year of adoption, institution that adopted it, institution that enforces it

> Act No. 39/2007 on veterinary care, adopted in 2007 by the Government of the Slovak Republic, enforced by the Ministry of Agriculture and Rural Development and the State Veterinary Authority; According to this Act, § 6 the owner or keeper of an animal is obliged to take measures to prevent escape of the animal, its not planned or unwanted reproduction.

Field for additional information (optional)

› Only general requirements established in veterinary regulation.

13. Does your country have in place a National Action Plan for Invasive Species (NAPIS) (in the framework of other MEAs, such as CBD, Bern Convention, and GISP (Global Invasive Species Programme) (Strategic Plan 2009-2017, Objective 1, Target 5)?

☒ Being developed

Please provide starting date and expected finalisation date of the process

› The draft National Strategy on Invasive Alien Species was developed in 2010, expected finalisation of the process of adoption is by the end of 2013; Ministry of Environment informed the relevant stakeholders about its intention to adopt the National Strategy as a comprehensive (cross-sectoral) document and asked them to prepare their proposals for key actions which should be included into the National Strategy.

14. Has an eradication programme been considered, developed or implemented for any non-native waterbird species in your country?

☒ Not applicable

Please explain

› No one non-native waterbird species occurs in the wild in the populations with required eradication, only occasionally individuals.

15. Did you use the AEWA Guidelines on avoidance of introductions of non-native waterbird species?

☒ No

Please explain the reasons. What was used instead as a basis for dealing with the issue?

› New act on nature and landscape protection and its regulations are being developed in near future and these can include more detailed principles and guidelines addressing this issue.

Pressures and Responses

5. Habitat Conservation

5.1 Habitat Inventories

16. Has your country identified the network of all sites of international and national importance for the migratory waterbird species/populations listed on Table 1? (AEWA Action Plan, paragraph 3.1.2)

☒ Yes

Please provide full reference, e.g. title, year, authors, etc. or a web link

> Special Protection Areas designated in 2003 and 2010; the Critical Site Network was established in 2011; Important Bird Areas (updated in 1992, 2000, 2004); Ramsar sites network (www.ramsar.org) designated in 1990-2007; there is a big overlap between these types of sites of international importance.

You have attached the following Web links/URLs to this answer.

[Natura 2000 sites](#) - in Slovak only

[Important Bird Areas](#) - overview

[Ramsar Sites](#)

[Critical Sites Network](#)

Field for additional information (optional)

> The national list of proposed Special Protection Areas was approved by the Slovak Government in 2003 and submitted to the European Commission, later in 2010 updated with more precise data on surface area and with additional sites. In 30 SPAs AEWA Table 1 species are criteria species for designation. 12 Ramsar Sites of total 14 in Slovakia are relevant for waterbird species.

17. If your country has identified or is currently identifying the networks of sites of international and national importance, have you used the AEWA Guidelines on the preparation of site inventories for migratory waterbirds?

☒ No

Please explain the reasons. What has been used instead as a basis for the inventory?

> Guidelines of the Directive 2009/147/EC of the European Parliament and of the Council of 30 November 2009 on the conservation of wild birds were used.

5.2. Conservation of Areas

18. Which sites that were identified as important, either internationally or nationally, for Table 1 migratory waterbird species/populations have been designated as protected areas under the national legislation and have management plans that are being implemented? (AEWA Action Plan, paragraph 3.2.1)

Please report on both internationally and nationally important sites

☒ Reporting on designation and management of internationally important sites

☒ Reporting on designation and management of nationally important sites

All sites of international importance

Total number

> 42

Total area (ha)

> 1052792

Out of the above total: number of protected sites

> 465

Out of the above total: protected area (ha)

> 713006

Number of protected sites with management plans in place which are being implemented

> 4

Area under protection (in ha) covered by management plans which are being implemented

> 7504

All sites of national importance

Total number

> 6

Total area (ha)

> 20000

Out of the above total: number protected sites

> 1

Out of the above total: protected area (ha)

> 622

Number of protected sites with management plans in place which are being implemented

> 0

Area under protection (in ha) covered by management plans which are being implemented

> 0

19. Has your country used the AEWA Guidelines on the management of key sites for migratory waterbirds?

☒ No

Please explain the reasons. What guidance has been used instead?

> Recently are collected relevant data within the project.

20. Have you accessed and used the Critical Site Network (CSN) Tool for the AEWA area?

☒ Yes

Please give examples of how you have used the CSN Tool

> In October 2011 was improved the protection information and the CSN tool was included in relevant documents and plans.

Optionally you can provide additional information on section 5.2. Conservation of Areas

> EEA and Norwegian Funds projects - Conservation of Danube Floodplains as a centre of biodiversity (2009-2010) and EU LIFE project - Conservation of endangered bird species populations in natural habitats of the Danube inland delta (2009-2013) are implemented by NGO Regional Association for Nature Conservation and Sustainable Development BROZ; SOS/BirdLife Slovakia - project within the Programme of transborder cooperation PL-SK - Protection of threatened bird species of Western Carpathians (2009-2012); LIFE+ project Conservation of Botaurus stellaris and Aythya nyroca in SPA Medzibodrozie .

You have attached the following Web links/URLs to this answer.

Pressures and Responses

6. Management of Human Activities

6.1. Hunting

21. Does your country have an established system for the collection of harvest data, which covers the species listed in Table 1? (AEWA Action Plan, paragraph 4.1.3)

☒ Yes

Does it cover the following? (tick where applicable and provide details)

☒ All AEWA species occurring in your country

> All legally hunted species.

☒ Only some AEWA species occurring in your country

☒ The whole territory of your country

> Data are collected by regional authorities for hunting and processed by the institute (National Forestry Centre)

☒ All harvesting activities

> Hunting statistics and realization of exemptions.

☒ Other

> For species for which exemptions were granted by the Ministry of Environment the collection of data on real use of the species is made by the Ministry of Environment.

Field for additional information (optional)

> Each hunting organization is responsible for managing hunting unit. They have obligation to register all individuals of game species they shot. This register is then passed to the National Forestry Centre, an expert organization under the Ministry of Agriculture and Rural Development of the Slovak Republic which develops records and statistics.

22. Has your country phased out the use of lead shot for hunting in wetlands? (AEWA Action Plan, paragraph 4.1.4)

☒ Fully

When was the lead shot use in wetlands banned? What legislation is in place? Who does enforce this legislation?

> Prohibited methods and means of capture and killing of protected animals are stated in § 9 of the Regulation of the Ministry of Environment of the Slovak Republic No. 24/2003 to the Act on nature and landscape protection. According to it, using of lead ammunition during hunt of waterfowl in wetlands is prohibited. Consequently the use of lead shots is banned in the hunting law (Act No. 274/2009, § 65, par. 36).

23. Are there measures in your country to reduce/eliminate illegal taking? (AEWA Action Plan, paragraph 4.1.6)

☒ Yes

How would you rate the effectiveness of the measures?

☒ Moderate

Please provide details

> Nature conservation and hunting guards and specialized police departments exist, but in not sufficient numbers. Special environmental crime departments exist in the police and the Ministry of Interior.

24. Has your country used the AEWA Guidelines on sustainable harvest of migratory birds?

☒ No

Please explain the reasons. What other guidance has been used instead?

> The national legislation followed EU regulations. But the practice follows the principles set in the steps of the AEWA Guidelines.

Optionally you can provide additional information on section 6.1. Hunting

> According to the Act No. 274/2009 Coll. on hunting the employees of the State Nature Conservancy are members of the advisory boards for hunting (organized by the regional forestry offices).

6.2. Other human activities

25. Does your country have legislation in place, which provides for Strategic Environmental Assessment/Environmental Impact Assessment (SEA/EIA) of activities potentially negatively affecting natural habitats or wildlife? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes and being implemented

Do the SEA/EIA processes consider waterbirds and habitats on which they depend?

☒ Yes

Please provide details

› Slovak Republic as a member of EU carries out Environmental Impact Assessment (EIA) of activities potentially affecting protected sites or areas important for species covered by the Agreement, according to the Act no. 24/2006 on the environmental impact assessment, which implements relevant Directives of EU.

Do the SEA/EIA processes include public participation?

☒ Yes

Please provide details

› The Act on EIA was updated in 2011 and it enables wider and more effective public participation.

26. In the last three years, has your country used SEA/EIA for all relevant projects to assess the impact of proposed projects on migratory waterbird species listed on table 1 and/or habitats/sites on which they depend? (AEWA Action Plan, paragraph 4.3.1)

☒ Yes, all proposed projects

Please provide information on the outstanding cases

› In 2009: Bridge on the Morava River Zahorska Ves (SK) - Angern (AT) - report on evaluation; Expressway R7 Holice - Dunajská Streda - plan; Wind turbines Svodin - report on evaluation; Expressway R2 Vcelare - Saca; Gombasek - Vcelare - report on evaluation; 2010: Expressway R7 Dunajská Lužná - Holice - report on evaluation; Highway D4 Jarovce - Ivanka, North - report on evaluation; 2011: Danubia Park - golf course - plan; Pomoravie - Morava River - tourist navigation plan.

27. Is by-catch of waterbirds in fishing gear taking place in your country? (Resolution 3.8)

☒ Not applicable

Please explain

› Using of fishing gear is not a common method of fishing.

28. Has your country undertaken steps towards the adoption/application of measures to reduce the incidental catch of seabirds and combat Illegal Unregulated and Unreported (IUU) fishing practices in the Agreement area? (Resolution 3.8)

☒ Not applicable

Please explain

› Slovakia is an inland country.

Pressures and Responses

7. Research and Monitoring

29. Does your country have waterbird monitoring schemes for the AEWA species in place? (Strategic Plan 2009-2017, Objective 3, Target 2)

☒ Yes

Covering the breeding period

☒ Partially

Please provide details

› The monitoring of *Ciconia ciconia* is organized by the Slovak Ornithological Society. Project Development of data on favourable conservation status of selected bird species and their habitats in SPAs (ERDF Operational Programme Environment - 2009-2011) implemented by the State Nature Conservancy (not all SPAs covered). Programme Breeding Waterfowl Census implemented by the Slovak Ornithological Society/BirdLife Slovakia.

You have attached the following Web links/URLs to this answer.

[Atlas of nests of White Stork](#) - in Slovak only

[Breeding Waterfowl Census](#) - in Slovak only

[Project on data for favourable conservation status of selected birds](#) - in Slovak only

Covering the passage/migration period

☒ Partially

Please provide details

› Along with above mentioned project in SPAs census of waterbirds partly includes passage/migration period.

Covering the non-breeding/wintering period

☒ Partially

Please provide details

› Winter census of waterbirds (over 500 sites checked); Project Monitoring and management of Great Cormorant (*Phalacrocorax carbo*) implemented by the State Nature Conservancy (2009-2012, ERDF).

You have attached the following Web links/URLs to this answer.

[Waterbird census](#) - in Slovak only

Field for additional information (optional)

› Biota Partial Monitoring System is carried out in Slovakia, but with insufficient funding. Bird ringing is coordinated by the Slovak Ornithological Society/BirdLife Slovakia.

You have attached the following Web links/URLs to this answer.

[Bird ringing](#) - in Slovak only

30. Have you used the AEWA Guidelines for a waterbird monitoring protocol?

☒ Yes

Please provide details

› Standard methods used, available at www.vtaky.sk.

You have attached the following Web links/URLs to this answer.

[Waterbird monitoring](#) - in Slovak only

31. List (or provide links to lists) of research related to waterbirds and their conservation that has been undertaken or results published in the past triennium (Strategic Plan 2009-2017, Objective 3, Target 5)

› Some information available on web sites of the State Nature Conservancy of the Slovak Republic (www.sopsr.sk) and the Slovak Ornithological Society/BirdLife Slovakia (www.vtaky.sk); Research results usually published in Journal Tichodroma (www.tichodroma.sk/archiv.html); overview of publications 2009-2010 included in the CMS National Report (www.cms.int/bodies/COP/cop10/national_report/NRs_not_coded.html); Report on winter waterbird census in Slovakia in the season 2009/10 published, but not available on the web;

You have attached the following Web links/URLs to this answer.

[Project on monitoring](#) - in Slovak only

32. Has your government provided over the past triennium funds and/or logistical support for the International Waterbird Census at international or national level? (Strategic Plan 2009-2017, Objective 3, Target 1)

☒ Yes

Nationally

☒ Yes

Please provide details

› The IWC is coordinated by the Slovak Ornithological Society/BirdLife Slovakia and implemented mostly by volunteers, but in some regions the census is made and/or coordinated by State Nature Conservancy staff members.

You have attached the following Web links/URLs to this answer.

[Waterbird census](#) - in Slovak only

Internationally

☒ No

Please explain the reasons

› Lack of funds.

Pressures and Responses

8. Education and Information

8.1. AEWA Communication Strategy

33. Has your country developed and implemented programmes for raising awareness and understanding on waterbird conservation and about AEWA? (Strategic Plan 2009-2017, Objective 3, Target 3 and AEWA Action Plan, paragraphs 6.1-6.4)

☒ Yes, being implemented

Please list major features of the programmes and details of a contact person for each programme

> All projects implemented by the State Nature Conservancy, the Slovak Ornithological Society/BirdLife Slovakia or other organisations dealing with waterbirds included raising awareness activities (e.g. Protection of Senne and Medzibodrozie SPAs in Slovakia - LIFE, 2005-2011; The Danube River Network of Protected Areas - ETC South East Europe Programme, 2009-2011; Promotion of protected areas and species of Natura 2000 network; The provision of the management of wetlands in Slovakia, raising the environmental awareness of wetlands and capacity building - ERDF Operational Programme Environment, 2010-2012; Protection of diversity of waterbirds and their habitats in East Slovakian Lowland - EEA, Norway grants, 2009-2012; Protection of threatened bird species of Western Carpathians - Programme of transborder cooperation PL-SK, 2009-2012). Special programmes (and projects) for different target groups have been developed by e.g. Daphne - Institute of Applied Ecology, SOS/BirdLife Slovakia and the State Nature Conservancy of the Slovak Republic (Educational Programme Wetlands and Ramsar Sites). The activities include exhibitions (e.g. Wetlands, SPA Senne and Medzibodrozie, Danube), lectures, competitions, excursions, monitoring programme of the Slovak Environmental Agency for schools On a hiking tour with Natura, other educational programmes for school children and teachers, workshops and seminars. Exhibitions were prepared on wetlands conservation and ecosystem services. The Slovak Ornithological Society/BirdLife Slovakia organized camps and excursions for the public. They carried out several campaigns on bird protection e.g. "European Bird Day", "Bird Marathon", published awareness materials, journals etc.

Field for additional information (optional)

> Different events (Danube Day, European Birds Day, camps, excursions, conferences) are used to highlight the themes.

34. Has your country provided funding and other support, as appropriate (e.g. expertise, network, skills and resources), secured for the implementation of the AEWA Communication Strategy? (Strategic Plan 2009-2017, Objective 3, Target 1 and Resolution 3.10)

☒ No

Please explain the reasons

> Insufficient funds, co-financing provided for projects.

35. In Resolution 3.10 the Meeting of the Parties encouraged Contracting Parties to host AEWA Exchange Centres for their respective regions. Has your country considered/shown interest in hosting a Regional AEWA Exchange Centre? (Strategic Plan 2009-2017, Objective 3, Target 2 and Resolution 3.10)

☒ It is currently considering

Please provide details on the answer given above

> The State Nature Conservancy works on establishment of the Carpathian Wetland Centre which can serve also as the AEWA Exchange Centre for the Carpathian region.

36. Training for CEPA (Communication, Education and Public Awareness) at national level is supposed to be conducted by staff, which has been trained in the framework of the AEWA Training of Trainers programme. Has such training taken place in your country in the past triennium? (Strategic Plan 2009-2017, Objective 3, Target 2)

Applicable only for countries in regions where Training of Trainers programme has taken place

☒ No

Please explain the reasons

> The State Nature Conservancy staff members participated in the International training course organized by the Czech Ministry of Environment in Lednice (CZ) in September 2011 Wetlands as Waterfowl Habitats.

Pressures and Responses

9. Implementation

37. Has your country approached non-contracting parties to encourage them to ratify the Agreement? (Resolution 3.10)

Report only on activities over the past triennium

☒ No

Please explain the reasons

› Insufficient capacity.

38. Has your country supported/developed international co-operation projects for the implementation of the Agreement, according to the priorities outlined in the AEWA International Implementation Tasks (IIT) for the current triennium? (Resolution 3.11)

☒ Yes

Please list grants provided to IIT projects, or list all undertaken initiatives and briefly provide any relevant information

› Projects of transborder cooperation (PL-SK, CZ-SK, HU-SK, SK-UA) were developed and supported for exchange of information, research, surveys and monitoring, exchange or transfer of expertise, implemented mostly by SOS/BirdLife Slovakia and Regional Association for Nature Conservation and Sustainable Development Bratislava (BROZ).

39. Has your country resourced the AEWA Small Grants Fund over the past triennium? (Strategic Plan 2009-2017, Objective 5, Target 5)

☒ No

Please explain the reasons

› Not sufficient funds in the budget.

40. Does your country have in place a national coordination mechanism for implementation of AEWA, possibly linking to national coordination mechanisms for other biodiversity Multilateral Environmental Agreements (MEAs)? (Strategic Plan 2009-2017, Objective 5, Target 8)

☒ No

Please explain the reasons

› The implementation of AEWA is a part of the work of the Slovak Ramsar Committee composed of different stakeholders.

41. How would you suggest promoting further links between the biodiversity MEAs to which your country is a Contracting Party, so as to make your work more efficient and effective?

› The Ministry of Environment and the State Nature Conservancy organize regular meetings and consultations and representatives of relevant departments are involved in different bodies of MEAs; the procedure of intersectoral consultations is based in the rules for commenting the documents submitted to the Government. Closer involvement and cooperation with NGOs and other partners is necessary because of lack of capacity in governmental institutions.

Pressures and Responses

10. Avian Influenza

42. What issues have proved challenging in responding nationally to the spread of the Highly Pathogenic Avian Influenza (HPAI) in the last triennium and what further guidance or information would be useful in this respect?

List challenges

› Measures to prevent the spread of the HPAI were adopted in 2005 and are regularly updated. The relevant decisions of the European Commission are also available on the web. The non-stop telephone line was established by the Ministry of Agriculture in 2006 for reporting on found dead birds. Generally information on wildlife or ecological / nature conservation aspects of the disease are missing.

You have attached the following Web links/URLs to this answer.

Information portal - in Slovak only

EUR-Lex - EC decisions

List required further guidance or information

› Translation of existing guidance and information into the national language concerning waterbirds and wetlands and their publishing on the web to understand the risk of diseases that can be transmitted from these animals to humans and to ensure decisions and responses to disease outbreaks are effective and factually based.

43. Have you visited and used as a reference the AIWEb (the Avian Influenza, Wildlife and the Environment web site)?

☒ Yes

11. Confirmation

Confirmation of information verification and approval for submission

Please confirm:

In addition a scanned copy of an official letter from the relevant state institution, approving the report for submission, can be attached.

☒ I declare that the information provided in the Report on the implementation of AEWA for the period 2009-2011 has been verified and the report has been approved for submission by the appropriate state institution in the country.

Date of submission

> 15 January 2012
